

22-250 Remington

with 43-grain TNT® Green™

LABNOTES

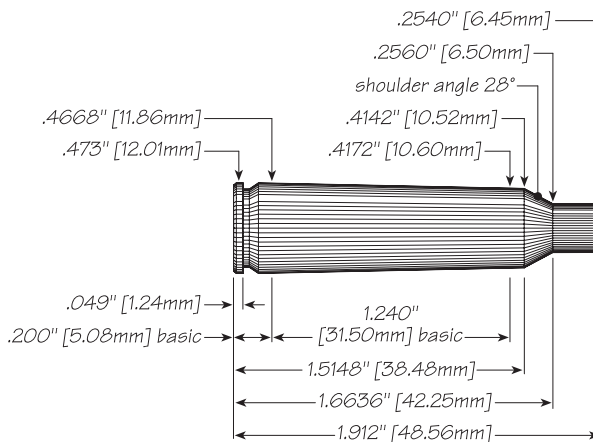

Varmint hunters using the 22-250 Remington now have a lead-free option in Speer's 22-caliber TNT® Green. Available in two weights—43 and 50 grains—TNT Green is perfect for the 22-250. Both bullets will stand up to the velocity potential of this popular cartridge.

Because the TNT Green bullet is longer than a conventional bullet of the same weight, it is important to follow the load recommendations below to maintain safe load levels. Do not load TNT Green bullets with charges recommended for similar lead-core bullets.

0.224"	TNT Green
Weight, grains	43
Ballistic Coefficient	0.138
Sectional Density	0.122
COAL Tested:	2.320"
Speer Part No.	1022

Propellant	START CHARGE		MAXIMUM CHARGE	
	Weight, grs	Muzzle Velocity, ft/sec	Weight, grs	Muzzle Velocity, ft/sec
