

300 Winchester Magnum

with 180-grain DeepCurl® Soft Point

LABNOTES

A 180-grain bullet is the best “all-around” payload for the 300 Winchester Magnum. The cartridge allows plenty of speed for a bullet of this weight, and the Speer® DeepCurl® Soft Point has a high ballistics coefficient that keeps the trajectory flat. Loaded with the bonded DeepCurl, the 300 Win. Mag. is suitable for just about any non-dangerous game you plan to hunt.

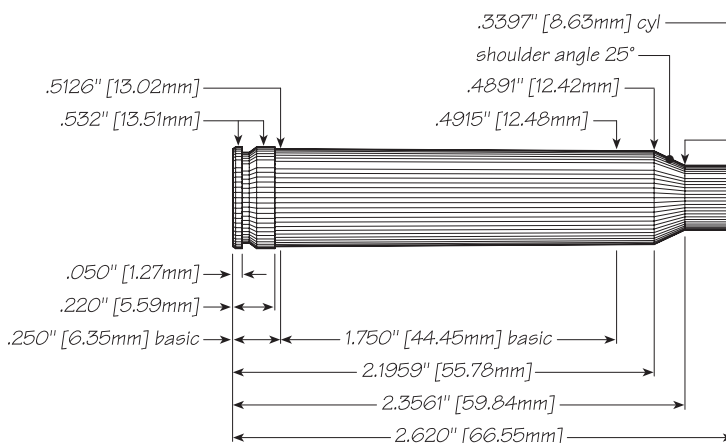

Most people do not think of this cartridge for deep-timber hunting but, by reducing velocities to those of some of the starter loads shown in the data tables, the Win. Mag. can be just as productive in the woods as it is on the open plains.
